Project Title *

Camera Lens for Publications classes

Project Description (1-2 paragraph summary) *

The Roosevelt Journalism department is trying to actively revamp the equipment that we use to create our newspapers and yearbook in order to interest more students to take these courses and to provide a better quality of publication for the students, staff and community.

Last year we were gifted three new cameras by the foundation. This year we are hoping to gain a telephoto lens that would help in the quality of photos as well as provide our students a safe distance to be able to obtain those close up "blood, sweat and tears" pictures that create lasting memories.

Total Amount Requested *

1250.00

Project Goal (What learning objective will be met? How will the project meet current needs of students, staff or community? What will the project accomplish?) *

Our publications serve over 2500 students, staff and community members at large while directly being available to 200 students to learn how to use the equipment and technology. COVID-19 has directly impacted how we create these publications and having this lens will be one more way to experience real-world journalism. Publication students have standards in digital media and photography that include applying the rules of composition, using focusing techniques, framing media and capturing subjects.

Project Management (Who will manage project? Is there any additional oversight needed? Are you interested in having a member of the TRHS Foundation board assist?) *

Nicole Crawford will handle the ordering of the item and the instruction of how to use and care for it.

Project Target Population (How many students will benefit? Is this within a specific department, staff related, etc.? What demographic of students will this serve?) *

A diverse population of students in grades 9-12 are served both in the class and as recipients of the publications we produce. Students, staff and community members are all reached by both the newspaper and yearbook publications.

Project Duration (How long will the project last? Do you believe there is long-term impact instead of one-time benefit?) *

The project will last years so long as the equipment is cared for properly.

Project Funding Sources (Have you applied for any additional funding, if so, from who and have you been awarded funds? Are there matching funds available? Are you pursuing any additional funding at this time? Please specify dollar amount where able.) *

We have an ongoing Donor's choose project and are looking into additional fundraising for a variety of other items that we are looking to add to the department.

Additional Information (Please provide us any additional information you feel might be important to making our funding decision.) *

We greatly appreciate the consideration of this request!

Project Budget (Please provide a DETAILED budget below for the entire project costs. Simply upload your budget here.) *
